EXPERIENCE SUMMARY

Product designer with a sharp eye for clarity and real-world impact. I've built tools for pilots, educators, crypto traders, and fintech users—always focused on making things intuitive, useful, and fast. From AI interfaces to AR classrooms and NFT marketplaces, I design with users in mind and ship with purpose. Remote, cross-functional, hands-on—ready for what's next.

EDUCATION

University of Engineering and Technology, Taxila

BS Software Engineering

Taxila, Pakistan

Graduation Date: Aug 2020

WORK EXPERIENCE

Next Gen Flight Training

Product Designer (Remote)

Bern, Switzerland

Sep 2024 - Present

- Developed intuitive AI-driven training modules for rotary wing pilots, safety managers, dispatchers, and ground staff, leading to reduction in training time and enhancing overall operational efficiency.
- Collaborated with cross-functional teams to design user-centered interfaces for AI products used by over 1,200 aviation professionals, improving user satisfaction.
- Conducted iterative usability testing and data analysis on AI training tools, resulting in an increase in knowledge retention rates among trainees within the first year of deployment.

Tower Technologies

Product Designer

Lahore, Pakistan

Dec 2023 - Sep 2024

- Developed innovative AR-based educational modules that enhanced student engagement by 40%, leading to a increase in course completion rates across multiple schools and colleges.
- Conducted comprehensive user testing sessions with over 200 students and educators, integrating feedback to refine product features, resulting in a 20% boost in learning retention metrics.

Decklaration Studio

Product Designer

Lahore, Pakistan

Nov 2021 - Dec 2023

- Conceptualized and developed a user-centric NFT marketplace tailored for art galleries in Singapore.
- Implemented innovative features such as real-time bidding and secure digital ownership verification, leading to a 50% growth in transaction volume and facilitating over \$10 million in art sales during the initial quarter.
- Also worked on a white label crypto wallet that can be used by any financial institute to adapt to cryptocurrency

TenX

UX Designer

Lahore, Pakistan

Sep 2020 - Oct 2021

- Worked design systems for a fintech institute in Pakistan.
- Developed and documented the design system and design language.

AlphaSquad Technologies

UI Design Internee (Remote)

Lahore, Pakistan

Jan 2020 - Jun 2020
